In 2009, the Nationwide Foundation awarded a grant to the Kurdish and Middle Eastern Women's Organisation to develop two projects under its Investors Programme Scheme. One of the projects, a DVD, entitled "For Honour and Love", was developed jointly by KMEWO and Eighteen & Under from Dundee in Scotland.

The DVD will be shown as part of the 2 hour training session, aimed at enabling community agencies to better understand honour based violence, and forced marriage, and ensure they are able to support women in our communities facing these serious issues.
